

Campus Placement Policy (Synthetic Demonstration Policy)

Chitkara University — B.E./B.Tech CSE and Allied Specializations

This is a SYNTHETIC DEMONSTRATION POLICY created solely for an academic AI/RAG project. It is NOT the official Chitkara University placement policy and must not be relied upon as such. For actual rules, students must consult the official Placement Cell.

1. Placement Eligibility

Students enrolled in B.E./B.Tech CSE, CSE (AI & ML), or CSE (AI & FT) become eligible for campus placement participation starting Semester 6, subject to the CGPA and backlog rules below.

2. CGPA Rules

Each participating company defines its own minimum CGPA threshold (see the company's Drive Demo document). In this synthetic dataset, minimum CGPA thresholds range from 6.00 to 8.00 depending on the company tier.

3. Active Backlog Rules

Students with an active (standing, unresolved) backlog in any subject are not eligible to sit for placement drives in this synthetic policy, unless a specific drive states otherwise.

4. Historical Backlog Rules

Students with historical (cleared) backlogs may be eligible subject to a maximum backlog count specified per drive (commonly up to 2 in this synthetic dataset).

5. Placement Semester Rules

Campus placement activity is modelled ONLY for Semester 6, Semester 7 and Semester 8. No placement activity, drive, or hiring record exists for Semesters 1 through 5 in this dataset.

6. Registration Rules

Students must register on the placement portal each academic year to remain eligible for that year's drives (synthetic rule).

7. Application Rules

Students may apply to a drive only if they satisfy the CGPA, backlog and semester eligibility criteria specified for that drive.

8. Offer Rules

In this synthetic policy, a student who accepts an offer from one company is modelled as becoming ineligible for further drives in the same placement cycle, unless the drive is designated a "dream" or "super-dream" tier (not modelled numerically in this dataset).

9. Withdrawal Rules

Students may withdraw from a drive prior to the shortlisting stage by notifying the Placement Cell in writing (synthetic rule).

10. Student Conduct

Students are expected to behave professionally during all assessment and interview stages. Misconduct may result in debarment from future drives (synthetic rule).

11. Placement-Cell Authority

The Placement Cell retains sole discretion over eligibility exceptions, drive scheduling, and dispute resolution (synthetic rule).

12. Data / Privacy Expectations

All placement statistics in this dataset are synthetic and anonymized by construction; no real student, recruiter, or company record is represented. Any resemblance to actual figures is coincidental.

All company names are used purely for academic simulation context. All figures, statistics, eligibility criteria and package details in this document are SYNTHETIC / FICTIONAL and were generated for an AI/RAG coursework demonstration. They do NOT represent real placement outcomes, offers, or data from the named company, Chitkara University, or its Placement Cell.
